Who We Are and What We Do

Busch Clean Air S.A. is a member of Busch Vacuum Pumps and Systems.

Busch Vacuum Pumps and Systems is one of the largest manufacturers of vacuum pumps, blowers and compressors in the world. Our product range comprises solutions for vacuum and overpressure technology in all industry sectors.

The Busch product range offers the largest selection of industrial vacuum technologies worldwide. We can draw on more than 50 years of experience in vacuum pump and low pressure pump manufacture.

Our company was founded in 1963. With 59 subsidiaries in 40 countries and sales agents in over 30 countries, we can provide sound advice and practical support to our customers on-site.

Busch operates production plants in Germany, Switzerland, Great Britain, the Czech Republic, Korea and the USA. The Busch workforce of more than 2.700 employees worldwide includes many chemical engineering, mechanical engineering and service specialists.

The Busch group is a family-owned company, and is managed by members of the Busch family.

Busch Clean Air S.A. itself is within the Busch Group specialised in overpressure technology for air assisted systems. Busch Clean Air S.A. was established in 2010 and has 23 employees with a production capacity of 50.000 air compressors and vacuum pumps. We provide air compressors: dry running and friction free, with CAN communication, high efficiency level, low pressure fluctuation, dynamic regulation, long lifetime and ATEX compliant.

We are experts in compressors for air assisted systems with

- many years of experience in automotive industries (e. g. exhaust gas aftertreatment).
- highly skilled staff for production and assembly.
- structured product development processes and project management.
- advanced product quality planning (APQP).
- the possibility of using the Busch international network, sharing information, experience, research and development resources - worldwide.
- the reliability of a global acting company and the rapidness of a small team of application experts.

We provide professionalism and a high level of flexibility to meet your needs.
