**sera ComPress GmbH**

sera-Straße 1  
34276 Immenhausen

### Products / Applications Certificates

#### **System Provider in Compressor Technology**

**sera ComPress** offers a multiplicity of custom-designed solutions on the basis of one and multistage metal diaphragm compressors and piston compressors for the oil- and contamination free compression of high-purity gases with flammable, aggressive, inert, toxic

and radioactive characteristics.

Thereby **sera ComPress** is able to realize customized applications, which are optimally constructed for the respective operation purpose.

In addition, **sera ComPress** supports you before, during and after the sale with extensive services like:

- technical support
- commissioning and installation
- spare parts service
- maintenance
- repair service
- customer trainings.
